Our History

Although the Salesian-style work celebrated more than half a century in Salinas, it was only with the contribution of former Ecuadorian volunteers that the institutionalization of the service to the population began. In 1992, in the house of Luis González, were the beginnings of the operational office of the Salesian Mission. There, the administration of the AliSalinas, Confites, and Infusions and natural cosmetics factory was formally born. With which it is possible to finance several projects, such as the construction of chapels, help to vulnerable personnel, and communities.

Social Projects

Salinas Salesian Family Foundation, carries out social projects in different areas. The main idea is to cover different areas related to the needs of the communities of Salinas de Guaranda.

Farming Projects

Technical advisory projects are carried out to improve the quality of crops that are marketed in the area.

Livestock Projects

Donation of different types of cattle to genetically improve the existing cattle and with this the existing milk production.

Building Projects

Technical support in the construction of greenhouses, cheese factories, tourist and communal houses to improve the quality of life of community members.

Community work

I work with volunteers in evangelization projects, leadership training, welfare of older adults, physical and mental health.
